

AI DOCUMENT FORENSIC VERIFICATION CERTIFICATE

Multi-Spectral Computer Vision & Machine Learning Forensic Analysis Report

Document UUID: DOC-TEST-999	Verification Verdict: FORGED
File Name: test_invoice.pdf	Forensic Confidence: 96.4%
Analysis Date: 2026-08-20 08:54:12 UTC	Risk Level: HIGH
Inference Pipeline: Random Forest & CV-ELA v2.4	Primary Tampering Category: Text Splicing & Digital Retouch
Processing Latency: 0.38s	Suspicious Anomaly Zones: 2

DETECTED FORGERY CATEGORIES BREAKDOWN

Category Taxonomy	Severity	Confidence	Forensic Explanation
Text & Numerical Alteration	HIGH	96.8%	Discontinuous font kerning and sharp ELA compression boundary.

8-MODULE SPECIALIZED FORENSIC AUDIT SCORECARD

Analysis Module	Status	Risk Level	Score	Key Findings Summary
Visual & Compression (ELA)	TAMPERED	HIGH	94.5%	Elevated compression anomaly in numerical block

FORENSIC VISUAL EVIDENCE INSPECTION

Original Document Layer <i>[Document Layer Processed & Verified]</i>	Error Level Analysis (ELA) <i>[Document Layer Processed & Verified]</i>
Anomaly Heatmap <i>[Document Layer Processed & Verified]</i>	Suspicious Regions Map <i>[Document Layer Processed & Verified]</i>

LEGAL FORENSIC NOTICE: This verification certificate was generated by an automated multi-module AI & Image Processing Forensic Analysis Pipeline. Confidence percentages and suspicious region bounding boxes represent machine-learning inferences based on mathematical pixel variance, frequency gradients, and sensor noise statistics.
